GENERAL CONDUCT GUIDELINES

The FREE GEEK Community Technology Center is a community organization that survives on volunteer and member service hours. Without these individuals, the program will not function. Many different people from many different backgrounds are participating. For everyone to get along and for the experience to be rewarding for all involved, everyone needs to respect each other.

The following behaviors are considered unacceptable and will result in your dismissal from the program:

- Taking parts and/or equipment that you have not earned through your service hours. This constitutes stealing and will not be tolerated.

- Entering hours into your account that you have not worked.

- Threatening, or otherwise verbally or physically intimidating staff, volunteers, members or anyone else.

- Use of racist, sexist and/or homophobic language.
